Online Test Engine: Online Tool, Convenient, easy to study. Instant Online Access. Supports All Web Browsers.

PDF format: Easy to read and print learning materials, our products are available in PDF file format.

Desktop Test Engine: Installable Software Application. Simulates Real Exam Environment. Practice Offline Anytime.

What Client's Say

"I passed today with score 80%. I confirm that it's valid in UK. Focus on "Correct answer" and forget the "Answer X from real test". I had free new questions.

Sebastian
★★★★★

"Questions from this HPE0-S51 dump are 100% valid... not all answers. I passed this exam a few days ago (in France) and got these results.

Wayne

Exam : **CCCP-001**

Title : Certified Cloud Computing
Professional (CCCP)

Vendor : GAQM

Version : DEMO

NO.1 Which of the following business continuity designs provides the highest degree of fault tolerance?

- A. Cold Site
- B. Site Mirroring
- C. Warm Site
- D. Hot Site

Answer: B

NO.2 Which of the following cloud models would be used when implementing a company's email system in the cloud?

- A. PaaS
- B. IaaS
- C. SaaS
- D. XaaS

Answer: C

NO.3 Which of the following can be used to enable out-of-band management of a Windows-based host?

- A. IPMI
- B. WMI
- C. SMTP
- D. SNMP

Answer: A

NO.4 A service must be Web-based for it to be considered a cloud service. Select the correct answer.

- A. True
- B. False

Answer: B

NO.5 Which of the following is bridged and sends packets on the wire with its own unique MAC address?

- A. Virtual PBX
- B. Virtual Switches
- C. VLAN
- D. Virtual NIC

Answer: D

NO.6 Which of the following types of cost metrics make it more difficult to justify the leasing of cloudbased IT resources as an alternative to purchasing on-premise IT resources? SELECT ALL THAT APPLY

- A. cost of capital
- B. sunk costs
- C. integration costs
- D. locked-in costs

Answer: BCD

NO.7 An administrator has implemented a self-service provisioning portal in the company and has associated a cost to CPU, memory, storage, and OS type. Which of the following cloud computing

options has been configured?

- A. Cloud bursting
- B. Chargeback
- C. Multi-tenancy
- D. Reservations

Answer: B

NO.8 The Platform-as-a-Service (PaaS) delivery model relies on (and is primarily defined by) the usage of a

____. Select the correct answer.

- A. ready-made environment
- B. virtualization environment
- C. simulation environment
- D. All of the above.

Answer: A

NO.9 An employee is asked to run an instance of a Linux OS while booted up in a Windows OS. Which of the following types of virtualization would be used to meet this requirement?

- A. Type I
- B. Type II
- C. Bare Metal
- D. Native

Answer: B

NO.10 A company has multiple guest operating systems running in a virtual environment. An administrator would like to ensure all servers consistently receive the same IP addresses. Which of the following should be implemented?

- A. Soft limit quotas
- B. Reservations
- C. Resource pooling
- D. Entitlement allocations

Answer: B

NO.11 A(n) ____ cloud is a cloud environment owned by a third-party cloud provider and accessible to external cloud consumers. The IT resources in the cloud are generally offered to cloud consumers at a cost. Select the correct answer.

- A. public
- B. on-premise
- C. private
- D. None of the above.

Answer: A

NO.12 Which of the following should an administrator implement when connecting the company's existing network to a public cloud environment to ensure confidentiality of data that is being transmitted?

- A. A proxy server
- B. A load balancing solution

- C. An IPsec tunnel
- D. A server clustering solution

Answer: C

NO.13 The Platform-as-a-Service (PaaS) delivery model relies on (and is primarily defined by) the usage of a

_____. Select the correct answer.

- A. ready-made environment
- B. virtualization environment
- C. simulation environment
- D. All of the above.

Answer: A

NO.14 Which of the following offers 128, 192, and 256 bit encryption?

- A. AES
- B. DES
- C. RC4
- D. RCS

Answer: A

NO.15 A company has hired a new Chief Security Officer (CSO). While reviewing the company's RAID levels on business critical data volumes, the CSO has decided to change the RAID level to allow for the best protection against number of disk failures. Which of the following RAID levels will accomplish this?

- A. RAID 0+1
- B. RAID 1+0
- C. RAID 1
- D. RAID 6

Answer: D

NO.16 REST services share a uniform contract and therefore cannot be deployed in cloud environments without a multi-device broker mechanism.

- A. True
- B. False

Answer: B

NO.17 Which of the following can limit VM mobility in a host cluster based on architectural differences?

- A. HBA
- B. Switch
- C. CPU
- D. NIC

Answer: C

NO.18 Which of the following can be a cloud service owner of a cloud service being offered as an SaaS product?

Select the correct answer.

- A. a cloud consumer organization

- B. a cloud provider organization
- C. a cloud consumer also acting as the cloud resource administrator of the SaaS product
- D. All of the above.

Answer: D

NO.19 A typical service level agreement (SLA) document for a cloud service will cover which of the following characteristics? Select the correct answer.

- A. availability
- B. reliability
- C. performance
- D. All of the above.

Answer: D

NO.20 An administrator creates a new virtual desktop for a user. The user is unable to log in with their domain credentials. However, the administrator is able to log in with a local administrator account and ping other

VDIs on the same subnet. Which of the following does the administrator need to correct?

- A. Flow control settings of TCP/IP
- B. Gateway on the network adapter
- C. VLAN on the virtual switch
- D. Virtual router

Answer: B

- A. DaaS
- B. BPaaS
- C. CaaS
- D. SaaS

Answer: D

NO.22 Which of the following would allow the knowledge management division to maximize the ability to find documents within an online document repository?

- A. Object ID
- B. Access control
- C. Metadata
- D. Rapid deployment

Answer: C

NO.23 A network administrator was tasked with creating several new subnets which will support 30 virtual hosts per subnet. Which of the following VLANs below would be used to support those hosts?

VLAN 100 192.168.1.0/30

VLAN 200 192.168.1.0/29

VLAN 300 192.168.1.0/26

VLAN 400 192.168.1.30/32

- A. 100
- B. 200
- C. 300

D. 400

Answer: C

NO.24 The IT department has had problems coping with the demand of service provisioning and deprovisioning.

If the IT department implements a cloud computing platform, which of the following would improve their productivity?

- A. On-demand self-service
- B. Multi-tenancy
- C. Scalability
- D. Elasticity

Answer: A

NO.25 _____ is a form of dynamic routing whereby a cloud service consumer's request is redirected to one of several redundant IT resources located on different clouds.

- A. Cloud balancing
- B. Cloud bursting
- C. Replication leveling
- D. Virtual state caching

Answer: A

NO.26 A start-up company has recently gone public and is experiencing unexpected growth. Which of the following cloud service models would allow the company to provide internal email quickly to new employees?

- A. PaaS
- B. CaaS
- C. SaaS
- D. IaaS

Answer: C

NO.27 When conducting penetration testing on production systems during business hours, such testing will

MOST likely cause disruption to operations when doing which of the following?

- A. When testing account lockout policies
- B. When checking file system ACLs
- C. When foot printing the network
- D. When discovering service versions

Answer: A

NO.28 Which of the following types of organizations can assume the role of cloud resource administrator for a cloud service? SELECT ALL THAT APPLY

- A. A cloud consumer organization that owns the cloud service.
- B. A cloud provider organization that owns the cloud service.
- C. A third-party organization contracted by the cloud consumer to administer the cloud service.
- D. A third-party organization contracted by the cloud provider to administer the cloud service.

Answer: ABCD

NO.29 Which of the following is true about Type I hypervisors?

- A. They run on bare metal hardware
- B. They are open source only
- C. They depend on an underlying OS
- D. They are proprietary only

Answer: A

NO.30 Which of the following cloud services provides billing, payroll, contract management, and human resource management functions?

- A. CaaS
- B. SaaS
- C. BPaaS
- D. DaaS

Answer: C
